“Just brilliant. Excellent professional service delivered almost instantaneously.”

A Uday Bhaskar  
Faculty, HRM

“The IMT Library has evolved into a fundamental support system, in our pursuit to create intellectual capital. The physical infrastructure is conducive to learning from the rich collection of books, journals, magazines and databases. I also find the remote login and electronic databases, very helpful for teaching and research. For any requirement, the library staff is always willing to offer assistance. The IMT Library is indeed an asset.”

Prof. Ashish Verma  
Faculty, Finance

“IMT library remains the nerve centre of learning, research and for that matter any academic activity. This is only made possible by the proactive nature of each and every staff under the guidance of our Librarian Dr Akhtar Hussain. The rich collection of books, journals and databases gets complemented by the super-fast turnaround time on requests for papers, materials and books those might not be at our disposal at any specific time. IMT library is an experience of that personal touch which any faculty or student is most likely to miss anywhere else.”

Prof. Manas Paul  
Faculty, Economics

“It has been a great journey so far to be associated with Library. As an academican, it is a privilege to be a part of the learning and resource centre that is the heart of any academic institution. At IMTG library our constant endeavour has been to further enrich the resources to help faculty members, research scholars and students in their research and other academic activities. Workshops, conferences, webinars and book exhibitions are some of the initiatives taken by the Library in past few years. Library committee will continue to be committed towards all the stakeholders.”

Prof. Puja Aggarwal  
Faculty, Finance

“IMT library is a rich academic resource for faculty and the students at IMT. For my research work, I have always banked on this important resource and have been a beneficiary of Dr Akhtar's wide network of fellow librarians. He always ensures that I do not have to wait for any research papers that I am looking for.”

Prof. Rakesh Kr. Singh  
Faculty, Marketing

“Ever since I have joined the institute, I always felt that our library; and yourself and your staff are always forthcoming to provide support, be it a research paper download, recommendation for a book, accessing a case study, teaching resources or access to online databases.

I feel that OUR LIBRARY AND THE LIBRARIAN IS THE BEST IN THE COUNTRY.”

Prof. Ram Mohan Dhara  
Faculty, Marketing

“I appreciate IMTG for having a rich collection of books, databases and other resources in its library. The state-of-the-art library provides all required intellectual resources to its faculty, students and staff. Apart from the rich collection of resources, I also appreciate the openness and keenness of library staff in serving all the stakeholders. I don't recall any incident when I would have requested for any resource and it would not have been made accessible to me promptly even if it meant arranging for it from other networks. I think IMT library is one of the key strengths of the institute.”

Prof. Richa Saxena  
Faculty, HRM

“IMTG library is one of the best in the region. Besides the availability of all possible books, journals, access to online resources we have a super effective and warm library team headed by Dr. Akhtar. Anything you need for research or teaching they will find a solution with a smile.”

**Prof. Sapna Popli**  
Faculty, Marketing

“Let me share a secret with you – my favourite place in IMT Ghaziabad is the Library! I am so delighted to be there, whenever I get to sit and work in the library. I am surrounded by my best friends – all kinds of books! My mind works the best when I am surrounded by the works of great authors, their ideas, thoughts, and content. It just inspires me to think deeply; rekindles my desire to excel my own-self; and helps me conceptualize various ideas. Having such feelings of hunger for more knowledge and yet being fulfilled, both at the same time; what else can an academician aspire to experience! We have one of the best collections of books, journals, magazines, audio-visual content, and subscriptions. But above all, it is the human resource manning the library. Each one of them is so polite, cooperative, knowledgeable, and helpful. Akhtar ji goes out of his way to help the faculty members with their requests – however difficult those may be. This just makes the library using experience so much richer and better! I am really proud of our library and all its resources. My best wishes to Akhtar ji and his team!”

**Prof. Shalini Rahul Tiwari**

Prof. R K Chakraborty

“While we think of a library, it's always envisioned to be a physical space with a heap of books to explore from! But IMT Ghaziabad's Library stood a testament to the technology relevant contemporary times in this time of the pandemic. Going hybrid completely with access to vast variety of exclusive resources in editorials, journals, research papers, newspapers & magazines, etc., all accessible at various online websites with privileged access to students as well as a large variety of physical books to read on at its campus location. It also had a provision for centralized exploration & findings using the EBSCO Discovery Service portal, this providing an easy access to all. Be it our Academic/Professional references & projects, Case Study Research, or upskilling in general, it is a one-stop point to get holistic readings and learnings in all domains.”
