IMT GHAZIABAD LIBRARY is pleased to announce the 21st MANLIBNET International Conference on “Empowering Libraries, Connecting Communities: Innovation, Collaboration, and Entrepreneurship.” IMT GHAZIABAD and MANLIBNET strongly advocate the pertinence of libraries: especially academic and public libraries in relentlessly adapting and evolving with the times. This unique conference will not only allow learning about advanced technology and services in library and information science, but the stakeholders will also get opportunities to learn about entrepreneurship and collaboration with the community and society. In our fast-paced, technology-driven world, it is vital to stay up to date on advances in the fields of library and information science. This conference provides a platform for the best way to spark innovative ideas and gain insights by meeting and learning from peers. The MANLIBNET 2023 International Conference is structured to bring together Creative, Academic, and Corporate experts in library science. The professionals may exchange their views and experiences on thinking beyond the box to help contemporary library professionals, libraries, and knowledge resource centres.

The conference seeks to inspire attendees to think creatively, collaborate effectively, and embrace entrepreneurship in order to empower libraries and connect communities.

- Encourage people to think outside the box and look for new and creative ways to help academic libraries, public libraries and bring people together.
- Highlight the importance of collaboration between libraries, library professionals, and other organizations in order to effectively serve communities and meet their needs.
- Inspire attendees to embrace an entrepreneurial spirit and embrace new opportunities for libraries to drive change and growth.
- Demonstrate how libraries can empower communities by providing access to information, resources, and programs that support lifelong learning and professional growth.
- Highlight the role of libraries as community hubs that bring people together and foster connections between individuals, organizations, and communities.

About Conference

The Objectives of the Conference

Structure of the Conference

Who Should Attend?

- Library and Information Science Professionals
- Faculty and Research Scholars
- IT Professionals and IT Service Providers
- Business and Corporate Professionals
- Knowledge Management Professionals
- Professional Associations
- Archivists, Educationists and Policy Makers
- Publishers, Information Providers and Exhibitors
CORE THEMES

Empowering Libraries, Connecting Communities: Innovation, Collaboration and Entrepreneurship

Sub-Themes

Empowering Academic & Public Libraries
- Modernizing Library Technology
  Providing Training and Professional Development
- Opportunities
- Building Partnerships and Collaborations
- Increasing Public Access and Outreach
- Collection Development and Diversifications
  Developing Community Driven Programs and Services
- Advocating for Libraries
- Supporting Digital Literacy and Information Literacy
- Sustainability and Future Planning for Libraries
- Information Technology and the Restructuring
- The Future of Library Materials

Innovation in Libraries
- Innovation in Learning Environment
- Innovative Information Services
- Technology Integration
- Digital Transformation
- Data-Driven Decision Making
- Space Redesign
- Collaborative Learning
- Outreach and Engagement
- Sustainability
- User-Centered Design
- Inclusivity and Diversity
- Future-Proofing
- Innovation through Research

Connecting Communities
- Social Media Integration
- Collaborative Programming
- Technology Hubs
- Community Partnerships
- Volunteer Opportunities
- Outreach Initiatives
- Cultural and Diversity Initiatives
- Metrics & User Studies
- Libraries and Public Education

Collaboration in Libraries
- Resource Sharing
- Joint Collection Development
- Cooperative Reference and Information Services
- Shared Technology and Digital Resources
- Consortia Purchasing and Licensing Agreements
- Staff Development and Training Collaborations
- Joint Marketing and Outreach Initiatives
- Community Partnerships and Engagement
- Cooperative National and International Information Networks

Digital Technology and Trends in Libraries
- Digital Content Creation, Preservation, and Delivery
- New Learning and Web Technology
- Data Science, Open Source, Open Data and Open Science
- Mobile, Web and Semantic Technology Application in Libraries
- Metaverse in Library
