

MANAGING HIGH-PERFORMANCE TEAMS

DURATION: 2 DAYS

PROGRAM OVERVIEW

The use of teams has expanded dramatically in response to competitive challenges and technological changes. Structures of high-performance work teams allow for the application of multiple skills, judgments and experiences that are most appropriate for projects requiring diverse expertise and problem-solving skills. These high-performance work teams can execute more quickly, make better decisions, solve more complex problems, and do more to enhance creativity and build skills than an individual. Their use also increases productivity and morale; well-functioning teams can outperform individuals and even other types of working groups.

LEARNING OBJECTIVES

- Understand the characteristics of a high performing team
- Develop the ability to manage teams more effectively
- Learn combination of approaches to engage, empower and motivate the team
- Make use of leadership style to get the most out of their team
- Establish credibility and develop a culture of trust within the team

DELIVERABLES

- Understanding/Diagnosing the team process
- Learn when team becomes dysfunctional
- Able to develop and lead high-performance team
- Learn Leadership strategies
- Build a culture of teamwork

PEDAGOGY

The pedagogy will be a combination of facilitated discussions on real-life problems, exercises, videos, experience sharing, cases, etc. The curriculum maintains a healthy balance between depth and breadth of knowledge and skills.

TARGET GROUP

This program is designed for all managers, team leaders, supervisor and individuals wishing to improve their skills in building and leading teams.
